NEW MAPS FROM EUROPE

Six outstanding wall maps, uniformly excellent in clarity of detail, coverage, and use of color. Political data postwar.

Freytag-Berndt

German Text

FB51rp **Russia,** physical, 79″ x 83″. Scale 1:2,000,000. All of European Russia and Central Europe, part of Siberia. Place names in Russian and German. Superior craftsmanship in typography and layout.

FB49rp **Austria,** physical, 92″ x 75″. Scale 1:300,000. All of Austria, parts of Germany, Switzerland, Italy, Yugoslavia, and Hungary. Glaciation and drainage patterns clearly shown; details readily identifiable.

Flemming

German Text

FL9e **World,** economic, 90″ x 65″. Scale 1:15,000,000. Land use and distribution of raw materials. Very informative without being crowded. Coloring and layout excellent.

Regions of Germany: **Schleswig-Holstein** (FL28sh, 67″ x 70″, scale 1:150,000), **Lower Saxony** (FL28nwc, 76″ x 65″, scale 1:200,000). Detailed, physical-political studies of North Sea coast and Harz Mts. area.

Ucila

Serbo-Croatian Text

U63rp **Yugoslavia,** physical-political, 72″ x 67″. Scale 1:500,000. Edited (1949) by Professors Bohinec and Planina. Includes parts of all of the adjoining countries. Texture of topography indicated by hill shading and shown in bright colors; political features in considerable detail. Exceptional carrying power.

THE DIRECTORY ISSUE

The last directory of AAG Members and Associates was published in 1949. The Council and Publications Committee consequently agreed that this issue of The Professional Geographer should be a new directory, indicating in the following sequence, for each Member or Associate, the

Full name
Position, title, and address
Degrees, dates, and institutions
Home address.

Within the limits of available information, this has been done, using capital letters for the name and semicolons to separate the last three categories of information from each other.

The desirability of listing fields of special interest and past positions is obvious, but the difficulty in collecting comparable data for all the Members and Associates, as well as the cost of publishing a longer directory precluded any such possibility. It will be obvious that even the four items listed above are not known to the Central Office of the AAG for all those listed in this directory. We have, however, made a sincere effort to include at least the name and a current address for every Member and Associate.

I wish to express my appreciation for your fine cooperation in providing directory information at a time when we are being flooded with time-consuming questionnaires. I also wish to express my regret for omissions and errors that always plague the compiler of a directory. If you will notify me before August 10 of such errors and of address changes, I shall publish the corrections in the September issue as a supplement or table of errata for this directory.
